## go figure: feel good design

If you're a Porter fan you might have picked up an inflight re:porter magazine in your travels and discovered a great little story, 'Beyond Space' about figure3.

In case you missed it, some highlights:

"Design's a very subtle thing," says Peter Simons, president of Simons, the iconic Quebec fashion retailer, "It's about creating a beautiful environment. But it's also about creating a comfortable environment. When the designer tries too hard, then it's overdone and it's heavy on you. figure3 has the good sense to get out of the way and let the space do the talking."

For figure3, interior design isn't just about making places that look beautiful – it's about creating spaces that feel good, too.
