## Being There for Kids

Most of us can identify with being the outsider at some point in our lives.

For some young people, simply going to school to face the unkindness of classmates is a daily challenge. A recent survey by the Kids Help Phone sheds light on the nature of bullying – in the schoolyard and online – and why it too often leads to tragic results for kids who can no longer face the struggle to fit in.

This year figure3 will support the Kids Help Phone organization, helping young people gain the confidence to stand up to bullies, and stand up for their friends.

Our best wishes for a happy new year from all your friends at figure3.
